

2865-S Banknote value counter

Rapidly value counts banknotes with the highest precision

Count large amounts of banknotes with complete certainty and ease. The Safescan 2865-S rapidly value counts mixed notes while simultaneously verifying them on up to seven security features. Perfect for when you need to process large stacks of cash quickly. Thanks to its smart design, highdefinition touch display and intelligent interface in your local language your cash counting will be easier, faster and more accurate than ever.

Pre-installed currencies:
 MYR, SGD, HKD, CNY, JPY, AUD, USD, EUR, GBP

- Value counts mixed banknotes for all pre-installed currencies
- Counts sorted banknotes for all currencies
- Value counts up to 1.200 banknotes per minute
- Counts up to three currencies at once in the multi-mix mode
- Verifies banknotes on up to seven security features
- 100% tested banknote verification by central banks
- Automatically recognizes which currency or denomination is inserted
- Creates stacks of banknotes based on amount with the batch feature
- Easily operated with HD touch display with multi-lingual interface and quick menu
- Scans the tiniest details of banknotes thanks to its double CIS technology
- Stops counting and presents an audio and visual alarm when a suspected banknote is detected
- Helps to ensure a long life cycle by displaying maintenance notifications when the device needs to be cleaned

Displays a detailed message when a suspected banknote is detected

Shows a complete count overview per currency and denomination

Internal parts and sensors can easily be cleaned by opening the top panel
